Proof of patrol for security companies. Each guard carries a rugged IP67 reader and taps RFID checkpoints on the site. The real-time 4G models send every tap, SOS alarm and GPS position to the cloud as it happens, so you and your client see the patrol live. The offline models download by USB at the end of the shift. Made by JWM, a guard-tour manufacturer since 2001.

BY AIR About 12–14 days to our Johannesburg warehouse, from the factory's stock, duties paid (DDP)
