

FILLING, CAPPING & SEALING

INDUCTION FOIL SEALER FOR BOTTLES AND JARS

FACTORY DIRECT | LANDED IN RAND | 220 V

R101 144

Landed and cleared, collected from our Johannesburg warehouse.

Seals the foil membrane onto bottles and jars as they pass underneath, giving the tamper-evident seal retailers expect. Continuous, so it keeps up with a filling line rather than holding it up.

LEAD TIME 10–13 weeks from order

SPECIFICATION

WHAT YOU ARE GETTING

Neck sizes	20 – 68 mm
Type	Electromagnetic induction, continuous
Power	220 V single phase
Crated	600 × 600 × 1 300 mm, 90 kg
